

ESSA and Personalized Learning Dashboard

39 state ESSA plans reference personalized learning. Here's a snapshot of how states are advancing this approach.

VISION

17 states

incorporate **personalized learning** into their vision for ESSA implementation.

EXCELLENT EDUCATORS

10 states

will explore the development of a statewide system of **micro-credentials** for educators to personalize and enhance professional development.

14 states

will launch an online professional development platform for educators to make **personalized professional development** available anytime, anywhere.

ACCOUNTABILITY

19 states

will establish **dashboards** to provide parents, students, and other education stakeholders with comprehensive data on school quality and student opportunities.

25 states

will use an academic proficiency indicator that accounts for the performance level of each student in a school, such as **scale scores or performance indices**, incentivizing improved performance for each student regardless of whether they score below or above proficient.

35 states

will incorporate a high school indicator that emphasizes **multiple pathways** for demonstrating college and career readiness.

37 states

will incorporate an **extended-year graduation rate indicator** providing credit for schools that successfully graduate students who need additional time.

SCHOOL IMPROVEMENT

11 states

will prioritize **personalized learning strategies** for supporting schools identified for improvement.

12 states

will prioritize strategies for **meaningful community engagement** in the development and implementation of school improvement plans.

SUPPORTING ALL STUDENTS

21 states

will prioritize the use of Title IV funds to support schools and districts to offer **social-emotional learning and whole child supports** to enhance or improve existing course offerings.

19 states

will ensure all students have a **personalized learning plan** that aligns to their academic needs, interests, and goals.
